| Accreditation recommendations to the College and year of recommendation | Actions taken by the college to address recommendations | Improvement results |
|--|---|--|
| <p>The academic year 2010- 2011 was focused on developing its Year One, Standard One: Mission Fulfillment report. Currently Shoreline Community College has addressed all of the outstanding recommendations to the College by the Northwest Commission on Colleges and Universities. We have no pending recommendations.</p> <p>We are now on an accelerated schedule for our Comprehensive Evaluation Report to the Commission, due fall 2012.</p> | <p>Shoreline Community College has recently submitted its Year One Self- Evaluation Report to the Northwest Commission on Colleges and Universities, due September 15, 2011. This is the first step in the 7-year process mandated by the accrediting agency.</p> <p>Shoreline is also due for a Comprehensive Evaluation Report to the Commission. During the current 2011-2012 school year, the College will be diligently working on its Year One through Year Seven evaluation report on all required five standards.</p> | <p>By the very nature of the detailed and thorough accreditation process, the College has defined mission fulfillment, reorganized its governance structure (moved to a Carver model of Policy Governance), aligned its resource allocation with its planning processes (through a combined Strategic Planning and Budget Committee), and is planning on reviewing and revising its Strategic Plan. We have developed various significant college-wide and program plans and assessments in this process:</p> <p><u>Planning:</u></p> <ul style="list-style-type: none"> • Strategic Enrollment Management Plan • International Programs Business Plan • Instructional imperatives and Instructional Plan • Virtual College Plan • Governance Plan • College Restructure plans |
