Male:	45%

Employment Rate

(2008-09): 85%
(within 9 months of program completion)

POINTS OF INTEREST:

Naval Shipyard Apprenticeships

Olympic College has approximately 500 students enrolled in an apprenticeship program at the Puget Sound Naval Shipyard. The associate degree graduation rate is 90 percent. This program has been heralded as one of the best federal apprenticeship programs in the nation. The Puget sound naval ship yard is the second largest industrial employer in the State – Boeing being the largest.

Bachelor's in Nursing Close to Home

We have a Bachelors of Science in Nursing degree program serving the place bound students of our district. The program was the result of partnerships including local health care organizations, the Kitsap Economic Development Alliance and the University of Washington, Tacoma. It is the only community college baccalaureate of its kind in the State.

Mechanical Engineering Transfer Program

We have an engineering transfer program that feeds seamlessly into a Bachelors of Science in Mechanical Engineering program offered on our campus by WSU. WSU has assigned a full-time professor to teach in the program on-site. This program is a direct result of local work force demands. The shipyard hires over 100 engineers each year and almost all of them from out of state. This program provides the opportunity for great high paying jobs for local residents and meets a real industry demand.
