

April 2006 Statewide Business DTA Major Related Program (MRP) Agreement Update

This pathway is applicable to students planning to prepare for various business majors at universities in Washington. Effective Fall 2008 this agreement cancels and supersedes the existing statewide Business DTA agreement dated Summer 2003. Prior to Fall 2008 parties to the 2003 Business DTA additionally agree to continue to honor that agreement. Parties to that agreement may honor the April 2006 agreement prior to Fall 2008, if it is advantageous to the student. This agreement shall be subject to review and renewal by all parties not later than Winter 2010.

This document represents the business DTA/MRP agreement, an agreement that meets all requirements of Washington's Direct Transfer Agreement, between the baccalaureate institutions offering a bachelor's of science or bachelor's of arts in business administration including accounting, management and management information systems. Baccalaureate institutions party to this agreement are: CWU, EWU, UW (all campuses), WSU (all campuses), WWU, Gonzaga, Heritage, PLU, SMU, SPU, SU, and WWC.

Community colleges agree:

- The published associate degree listing will include advice to students about the need for early contact with their potential transfer institutions regarding the specific course choices in each area of the agreement where options are listed (Humanities, Social Science and Business Law or Introduction to Law) and for the electives. The published associate degree will also include advice to students regarding checking with their potential transfer institutions regarding the requirement for overall minimum GPA, a higher GPA in a selected subset of courses or a specific minimum grade in one or more courses such as math or English.
- By the effective date, community colleges that formerly listed the Associate in Business DTA agreement and others shall specify the Associate in Business DTA/MRP in their catalog and specify the courses consistent with this agreement.
- To offer the Business DTA/MRP each college must assure that the courses listed in their DTA/MRP as meeting the prerequisite requirements of this agreement are regarded as course equivalents to the similar required lower division course offered by each baccalaureate institutions party to the agreement.
- Subsequent to the effective date, when community colleges award the Associate in Business DTA/MRP colleges will designate completion as follows for clarity on the transcript and use by SBCTC for tracking reporting purposes:
 - Assoc in Business DTA/MRP Exit Code of F and CIP of 52.0101 (or leave CIP blank)
- If any community college changes the content of any of this agreement's required courses or if a community college discontinues offering this agreement's required courses or if a college or colleges find that changes to this MRP are needed, they will immediately notify the Instruction Commission, which will, in turn, notify the Joint Access Oversight Group (JAOG). JAOG will review the changes, as detailed in the section below (review process posted on the JAOG web site <http://www.sbctc.ctc.edu/transfer/jaog.asp>).

The participating baccalaureate institutions agree:

- Students completing the Business DTA/MRP will be assessed for entry into an institution's business school in a manner comparable to well prepared freshmen-entry applicants. That is, students completing the Business DTA/MRP will, if admitted to the university, be admitted as juniors and will be regarded as having all prerequisites for the business major completed except as noted in the DTA requirements listed below.
- Students completing the Business DTA/MRP, if admitted to the university, will be regarded as having completed the lower division general education courses to the same extent that all DTA graduates have completed those requirements (that is completed except for the provisos).
- The same minimum 2.0 GPA requirement that applies to the DTA in general applies to these pathways.
- Baccalaureate institutions will apply the 90 credits quarter credits required under this agreement to the credits required in the bachelor's degree, subject to institutional policy on the transfer of lower division credits.
- Baccalaureate institutions that do not require lower division courses specified in this agreement (such as a lower division Business Law course) agree to accept such courses specified in the agreements as lower division electives or in limited cases as equivalent to the upper division requirement in that area.
- Baccalaureate institutions will each build an **alert mechanism** into their curriculum review process for changes related to the prerequisites for the business majors.
 - The alert will go to the institution's or sector's JAOG member.
 - If the proposed change will affect lower division course taking, the JAOG member will bring the issue to JAOG attention for action to review or update this Major Related Program Agreement.
- Prior to making changes in the admission requirements, institutions agree to participate in the JAOG-designed **review process** and to abide by the related implementation timelines (review process posted on the JAOG web site <http://www.sbctc.ctc.edu/transfer/jaog.asp>).
- This statewide process applies only to changes¹ in the requirements for admission to the major. References to changes do not include changes in graduation requirements that are completed at the upper division or the GPA an institution may establish for admission to a program.

JAOG agrees:

- JAOG will notify the Higher Education Coordinating Board (HECB) of the review and of subsequent changes made to the agreement.

¹ As judged by impact on students. This statewide process is called into play when potential majors need to complete specific courses not previously identified or present test results or information not included in the agreement.
