“I thought of myself as nothing but a street monger and did not believe that I was worth more than anything other than to die a statistic. I know that (education) has changed my life and it gave me a purpose.”

Gina McConnell, former Purdy inmate and past Seattle Central College student. McConnell travels throughout the prison system encouraging inmates to pursue education.

A smart investment

On average, inmates who participate in correction education programs have 43 percent lower odds of returning to prison than inmates who do not, according to a 2014 study by the RAND Corporation.4

The return to taxpayers and society is substantial. A 2016 update by the Washington State Institute for Public Policy found that for every dollar invested in these programs, up to $18.36 is saved from fewer new crimes and costly incarcerations.5 Instead of paying for prison beds, money is freed for public education, infrastructure, job creation and other priorities that impact the lives of everyday Washingtonians.

Prison education programs also give students hope, focus, goals and a new way of thinking even before they leave the prison walls.6

Every year, anywhere from 7,000 to 8,000 inmates are released from Washington prisons.7 Corrections education helps ensure they don’t come back. In doing so, it gives prisoners a fresh chance to be successful community members and gives residents a safeguard from crime.

Legislative request: AA degrees

The Washington State Board for Community and Technical Colleges and the Washington State Department of Corrections are seeking to broaden educational pathways available to incarcerated individuals. Proposed legislation would authorize the Department of Corrections to use existing public funds for associate degrees along with the standard basic education and job training programs.

Programs offered

Every prison offers adult basic education programs, which provide a foundational education in reading, writing, math and English language. This includes GED™ preparation programs. Several also offer High School 21+, a competency-based high school diploma program. With High School 21+, students can earn high school credits by proving they have mastered required subjects through past education or life experience. They then take classes to fill in the gaps and earn a high school diploma.

Job-search and anger management courses are also available at every prison.

Workforce programs vary by institution and include:

- Automotive Mechanics Technology
- Automotive Rebuilding and Refinishing
- Automotive Services
- Building Maintenance
- Business Management and Entrepreneurship
- Business Technology
- Carpentry
- Computer Numerical Controlled Manufacturing (CNC)
- Computer Programming
- Diesel Mechanics
- Drywall, Roofing and Siding
- Graphic Design
- Green Building
- Horticulture
- HVAC Technology
- I-BEST Automotive*
- I-BEST Carpentry*
- I-BEST HVAC Technology*
- I-BEST Material Composites*
- Institutional Sanitation
- Pastry and Artisan Baking
- Technical Design and Computer Aided Design (CAD)
- Upholstery
- Welding

*Washington’s nationally recognized I-BEST (Integrated Basic Education and Skills Training) program pairs basic education with hands-on job experience so students learn in real-world settings.
