Students receiving need-based financial aid in eligible programs	55%
Students who work	40%
Students with children	37%

\* May not add up to 100% due to rounding.

\*\* May not add up to 100% because students may be counted in more than one race.

## POINTS OF INTEREST

### Applied Bachelor's Degrees

Centralia College offers four applied bachelor's degrees for students seeking advanced study.

Starting fall 2017, Centralia College will offer the Bachelor of Applied Science in Teacher Education. This program was developed in collaboration with Grays Harbor College, and courses will be shared between the two colleges. CC's emphasis areas are elementary and special education certification.

- The Bachelor of Applied Science in Applied Management prepares students for management positions in a wide range of businesses and industries. Graduates have the skills to start a small business or entrepreneurial ventures, and the credentials to apply for graduate programs.
- The Bachelor of Applied Science in Diesel Technology prepares students for management careers in the diesel industry. With a blend of in-class instruction and hands-on training, students prepare for careers in logging, construction, mining, agriculture, and transportation.
- The Bachelor of Applied Science in Information Technology: Application Development (BAS-IT:AD) program provides a strong technical foundation in application and software development. Students are prepared to work as application developers and designers, to manage IT projects, and to prepare software documentation.

### New Student Center

Slated to open spring 2017, the TransAlta Commons is a 70,000-square-foot student center on Centralia College's main campus. When completed, the TransAlta Commons will be the new home of admissions and registration, financial aid, bookstore, cafeteria, high-tech classrooms, and more. It will also provide a 500-seat dining/meeting space for the campus and community.

### Criminal Justice Pathway

Centralia College now has the ability to award law enforcement officers who meet training and work requirements 45 criminal justice credits towards an Associate of Technical Arts degree. This affords all law enforcement officers an important and viable option for furthering their education.
