Train for a Career in Manufacturing or Aerospace in 12 Weeks
The Washington Aerospace Training and Research (WATR) Center is a manufacturing and aerospace training center managed by Edmonds Community College through an agreement with the Aerospace Futures Alliance. WATR Center provides students the technical and employability skills needed to fill entry level positions in aerospace manufacturing. The center also offers customized training and has trained more than 1,950 incumbent workers. Short-term training has long-term benefits, from tackling the skills gap to driving the industry’s future innovations. Learn more at www.washingtonaerospace.com.

New Science, Engineering, and Technology Building and Triton Court Residence Hall
Edmonds CC plans to meet the region’s increasing demand for highly-skilled employees who are trained in Science, Technology, Engineering and Math (STEM) with the addition of a 70,000 square foot building. The building will open in fall 2020 and be a regional hub for those looking to pursue STEM degrees. Triton Court, also slated to open fall 2020, will offer students a clean, safe and friendly living environment across from the main Edmonds CC campus entrance. This new residence hall will feature units with one to three bedrooms and retail space on the ground floor.

Bachelor of Applied Science Degrees
Edmonds CC is proud to offer its first Bachelor of Applied Science (BAS) degree in Child, Youth, and Family Studies. This new program provides advanced knowledge and skills for professional positions in educational settings for young children and social service programs for youth and families. The degree integrates Early Childhood Education and Social and Human Services in an interdisciplinary program that enhances career opportunities and benefits the wellbeing of children, youth and families. Edmonds CC will also begin offering a BAS degree in Application Development in fall 2020.
