Premier Training for 21st Century Jobs

Shoreline’s professional-technical programs continue to earn regional and national recognition for exceptional curricula, stellar faculty and thriving business partnerships. With a nationally recognized Automotive program, Shoreline is one of only eight community colleges in the nation to offer innovative Tesla START training, leading the charge to greater sustainability in the automotive industry. Programs such as Purchasing and Supply Chain Management, Health Informatics and Information Management, Biotechnology, and Manufacturing impart real-world skills that position graduates at the forefront of the job market.

Supporting Students’ Academic and Personal Success

Shoreline Community College has a longstanding reputation for excellence in transfer to the University of Washington and top universities nationwide, with a robust offering of Associate in Arts, Associate in Science and specialized associate degrees. The Honors College offers students advanced coursework, undergraduate research opportunities and additional transfer support. A residence hall offers a convenient and safe environment for students to call home, with housing scholarships for formerly homeless students. In a partnership with United Way of King County, the Benefits Hub connects students with financial and personal resources on and off campus. Shoreline supports students with English language, math and reading barriers through ESL, Adult Basic Education classes, and the I-BEST integrated learning model. Shoreline supports out-of-school youth through the Career Education Options program and Learning Center North (in partnership with King County Work Training Program).

A Commitment to Diversity, Equity and Inclusion (DEI)

The college’s continued commitment to inclusive excellence is demonstrated through focused attention to campus-wide work on Guided Pathways, strategic plan initiatives, strategic enrollment management (SEM) efforts and DEI professional learning opportunities. A dedication to closing opportunity gaps, supporting historically underrepresented students, and reducing barriers for student success and learning is shared across campus departments and divisions.
