23

Family and Finances

Students receiving need-based financial aid in eligible programs	38%
Students with dependents	51%

*May not add up to 100% because students may be counted in more than one race. Percentages calculated on reported value.

POINTS OF INTEREST

SWFT Center Provides Targeted Job Training The Southwest Washington Flexible Training (SWFT) Center is now open on the Centralia College (CC) campus. It provides flexible training space for local business and industry, K-12, and college programs for the trades and others. It is home to the college's forestry and CDL simulators, and provides a dedicated health care classroom for targeted training and classes. It is the only space of its kind in the region and is garnering statewide interest from businesses and industries seeking targeted training for their workforce.

Youth Offenders Show Academic Success In spring 2020, Centralia College began a partnership with Green Hill School in Chehalis to provide education to youth offenders. The program aims to help youth transition to college and job training programs, and improve their chances of success upon reentry. Enrollment in college courses has grown every quarter and the students are excelling. In fact, seven high-achieving residents of Green Hill School were invited to join Phi Theta Kappa, the national honors society for two-year college students. In addition to showcasing this on their transcripts and resumes, Phi Theta Kappa provides access to scholarships, leadership development, letters of recommendation and much more.

New Applied Bachelor's Degree in Behavioral Health Care In fall 2021, CC began offering its fifth bachelor's degree – a Bachelor of Applied Science in Behavioral Healthcare. The BAS-Behavioral Healthcare program trains students in the treatment of mental illnesses, substance use disorders, poverty and homelessness. As an evening hybrid program, it provides maximum flexibility for working adults. Graduates will be prepared to enter the workforce or transition to graduate programs in fields like social work, addiction treatment, or counseling. Locally, there is huge demand for people with training and advanced degrees in behavioral health care.
