Mathematics, Engineering Science Achievement (MESA)
Coding Instructions
Effective for Academic Years 2015-16 forward
(Participating colleges and PeopleSoft coding added October 2018)

Twelve Washington community colleges currently participate in MESA. These colleges are Clark, Columbia Basin, Edmonds, Everett, Green River, Highline, Olympic, Seattle Central, Spokane Falls, Tacoma, Wenatchee, and Yakima.

Beginning September 2015, coding will be applied to identify students served by these and any future MESA programs.

Instructions

Legacy Coding

MESA students are identified through the Unusual Action code. You must first add the new unusual action code to the Unusual Action Code table in SMS (SM5021). Use unusual-action value “M!”. Enter the value for the student on the Student Unusual Action screen (SM5003) including the YRQ of their enrollment in the program.

NOTE: The students will need to be coded with the Unusual Action code each quarter they are served in the MESA program.

MESA students must be coded as “B” Intent in an academic transfer program.

PeopleSoft Coding

MESA students are identified through the SMSA Student Group. Students must be manually assigned to the SMSA Student Group. Students must be deactivated from the Student Group when they are no longer being served. This deactivation should be after the last day of the term in which they were last served.

MESA students must be enrolled in an academic transfer Plan Code.

If you have any question on the use of this code please contact the SBCTC Data Services at dataservices@sbctc.edu
