Introduction

This FA PRP (Peoplesoft Release Patchset) Overview Document is intended to provide ctcLink users with a summary of the changes that will be made in the system as a result of the upcoming 2024-2025 FA PRP upgrade implementation. Each FA PRP contains bug fixes and features that are important for PeopleSoft to work well. Below is an overview of the changes that you can expect to see as part of this upgrade.

Financial Aid

Federal Work Study (FWS) COD Full Participant Pages

The following FWS COD pages have been added.

- Federal Work Study Data
- COD FWS Outbound
- COD FWS Inbound
- View FWS COD Data

Though these pages will now be available in our system, Oracle has only delivered the 1.0a schema which is for reporting the 2022 Calendar year. Oracle is tentatively targeting to deliver 1.0b schema mid to late July.

We will be designing a process tied to these pages as we wait for the 1.0b schema from Oracle. We will update the <u>existing 'Reporting Federal Work Study (FWS) Calendar Earnings to COD' guide</u> with the new process and send an announcement on the FAlistservs when it is ready.

2021-2022 ISIR and INAS Components Archived

The following pages for the 2021-2022 aid year have been archived and are no longer visible in the Financial Aid > Federal Application Data navigation.

- Correct 2021-2022 ISIR records
- Simulate 2021-2022 FM INAS
- View 2021-2022 FM EFC Detail

navigation

Updates to ISIR Processing Navigation Collection

2021-2022 pages in the ISIR Processing Navigation Collection have been removed, and 2024-2025 pages added. Note that the 2024-2025 version of the Correct ISIR Records page no longer has an aid year range in the page name.

Removed:

- Correct 2021-2022 ISIR records
- 2021-2022 Suspense Management

Added:

- Correct ISIR Records
- 2024-2025 Suspense Management

New 2024-2025 ISIR Processing Pages

The following new 2024-2025 ISIR processing pages have been added. However, please note the asterisked pages have known issues still awaiting a solution from Oracle.

Navigations:

- Financial Aid > File Management > ISIR Import > 2024-2025 Suspense Management
- Financial Aid > File Management > ISIR Import > 2024-2025 ISIR File Data
- Financial Aid > File Management > ISIR Corrections > View 2024-2025 Outbound Files*
- Financial Aid > File Management > ISIR Corrections > View 2024-2025 Outbound Data*
- Financial Aid > Federal Application Data > Correct ISIR Records*
- Financial Aid > Federal Application Data > Simulate FM*
- Financial Aid > Verification > Manage 2024-2025 Verification

*These pages were delivered in these updates with known issues. Please double check the calculated SAI value before proceeding with awarding.

One of the pages with an issue is Correct ISIR Records due to PS SAI calculation not being accurate in some cases. We strongly discourage relying on the SAI calculation derived from the PS SAI calculation processes since the underlying logic still has many reported bugs awaiting resolution from Oracle.

PS calculates SAI during the following processes:

- Loading ISIRs into the Correct ISIR Records page
- Running Mass EFC Calc

• Selecting Calc SAI button

The SAI straight from the ISIR file can be found on the 2024-2025 ISIR Suspense Management page.

Updates to Correct ISIR Records page for Aid Year 2025

The following sections (tabs) have been added on the Correct ISIR Records for 2025 and onwards with each section having new fields added, such as the FTI data and manually reported amounts.

- Spouse Information tab
- Parent Spouse / Partner tab
- Transaction Detail tab
- SAI and Flags tab

Navigation

Updates to the Federal Extension (FM link) page

The Federal Extension page can be accessed from any page that allows recalculating the SAI or adjusting it. With this update, this page has been updated for the 2024-2025 aid year to disable the 'Calculate Student Federal Tax' and 'Calculate Parent Federal Tax' options. The Budget Durations link has been removed, as SAI is no longer prorated starting with 2024-2025.

Updates to Budgets to accommodate SAI and Housing Type logic

Updated Budget processing to ensure that starting from Aid Year 2025, it can still calculate the correct amount for Fed Need whenever the SAI is a negative value; and to ensure that it will be able to consider the selected Housing Type of the student.

New DLSAS Import 2024-2025 page

A new page has been delivered for importing Direct Loan School Account Summary COD files, such as the DSDF and DSLF Message Classes.

Navigation

Financial Aid > Loans> DL School Account Summary > DLSAS Import 2024-2025

Image: New DLSAS Import 2024-2025 page

2024-2025 Aid Year Updates for Direct Loan and PELL Processing

The COD 5.0b schema is now in production for 2024-2025 Pell and Direct Loans processing (includes origination, disbursement, generating COD files, and loading COD response files).

The 5.0b schema will populate automatically when Aid Year 2025 is selected on the run control page. However, there is a known issue with delivered schema, and we are in the process of testing a bug patch to fix the issue.

Known Issues

The following are details on bugs with the delivered functionality that have not yet been resolved by Oracle.

When running Generate Direct Loan Data for Aid Year 2025, the loan file that is produced has the incorrect namespace

For the 2024-2025 COD processing, the namespace 2021 should be 2023 as shown below: <xsd:schema targetNamespace="http://www.ed.gov/FSA/COD/2023/v5.0b" xmlns:xsd="http://www.w3.org/2001/XMLSchema" xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xmlns:cod="http://www.ed.gov/FSA/COD/2023/v5.0b" elementFormDefault="qualified">

However, the file that is generated in PS still shows 2021.

Oracle has logged it as a bug and provided a patch.

Bug 36594096 2024-2025 namespace is incorrect after applying patch 35950393- 2024-2025 aid year COD update (Doc ID 3021793.1)

As part of the 2024-2025 COD update, the namespace was updated as part of the 5.0b schema update. The initial 2024-2025 COD PRP updates did not include the correct update to the namespace, specifically updating the aid year reference from 2021 to 2023.

We are in the process of testing the patch. The tentative date the patch will be applied in the production environment is June 21, 2024. If all does not go as planned with testing and the production release date is pushed back, we'll provide a workaround.

When running Generate Pell Data for Aid Year 2025, the enrollment intensity is not accurate for Less Than Full Time Students

When generating COD Pell outbound file to report disbursement of Pell, the process is populating the enrollment intensity at 100 for students who have an enrollment intensity value <1

Oracle has logged it as a bug:

Bug 36622653 COD PELL outbound disbursement file enrollment intensity incorrect if less than full time
Student Self Service SAI Amount Doubled in Estimated Need on Financial Aid Summary page for 2024-2025 Aid Year

SAI is doubled on the Estimated Need page in Student Self Service for the 2024-2025 Aid Year.

The logic on the page then reduces that doubled amount from the student's Cost of Attendance, artificially inflating the student's Estimated Need amount (if they have a negative SAI) or artificially deflating the student's Estimated Need amount (if they have a positive SAI). This does not occur on staff-facing pages.

As of May 2024, Oracle has determined by way of Bug 36488556 and Doc ID 3015196.1 that a fix is scheduled for Image 33.

Issues with Mass EFC Calculation Batch Process

Using the Mass EFC Calculation batch process produces the same issues as using the Calc SAI button. However, if there are students with Reject Reasons (accurate or not), error messages do not return in the Message Log for the Mass EFC Calculation process. The SAI will still update to an Official 0 SAI value. The Dependency Status is removed, and values on the SAI and Flags tab are set to 0.

SAIs Evaluated by the Calc SAI button or Mass EFC Calculation Logic are Adjusted without Override Values

Some SAIs are modified by the new Calc SAI / Mass EFC Calculation logic, even when there are no Override values entered. Oracle has not yet provided an update for this functionality that can be used with confidence.

Navigations Impacted

- Financial Aid > Federal Application Data > Correct ISIR Records
- Financial Aid > File Management > Mass EFC Calculation
- Financial Aid > File Management > ISIR Import > 2024-2025 Suspense Management*
- Financial Aid > File Management > ISIR Import > Process ISIRs*

*Pages impacted if the Call Mass EFC logic is selected in the college's ISIR Data Load Parameters configuration.

One of the pages with an issue is Correct ISIR Records due to PS SAI calculation not being accurate in some cases. We strongly discourage relying on the SAI calculation derived from the PS SAI calculation processes since the underlying logic still has many reported bugs awaiting resolution from Oracle.

PS calculates SAI during the following processes:

- Loading ISIRs into the Correct ISIR Records page
- Running Mass EFC Calc
- Selecting Calc SAI button

The SAI straight from the ISIR file can be found on the 2024-2025 ISIR Suspense Management page.

ISIR Records with Blank SAI are Loading to ISIR Correction Page with SAI of Zero

When <u>Dept of Ed sends an ISIR with a blank SAI</u>, if the ISIR is an Official or Provisional status, it can get loaded into the system with an Official SAI value of zero.

Oracle has logged it as a bug:

Bug 36433624 ISIR records with blank SAI loading to ISIR correction page with SAI of zero

Calc SAI Button Can Trigger Artificial "Official" 0 SAI and Inaccurate Reject Reason Error Messages

Independent students often receive a "Rejects returned by the SAI Calculator" error message after using the Calc SAI button. The Transaction Detail tab displays Reject Reasons that do not accurately reflect the issues with the student's data that needs to be modified/corrected. The SAI is then inaccurately updated to 0 and the SAI Status is set to "Official", significantly increasing the risk of inaccurate awarding. Similar error messages can occur for Dependent students, as well.

Issues with Processing 2024-2025 ISIR Corrections in PS

There are reported issues with processing 2024-2025 ISIR Corrections in PS but as Dept of Ed is not accepting any batch corrections at this time, colleges will not be using the PS 2024-2025 functionality so the bugs are not mentioned in this document.

"Institutions will be able to submit corrections via the FAFSA Partner Portal (FPP) by the end of June. The FPP will allow institutions to submit corrections electronically by entering the data manually in the FAFSA Partner Portal. Batch institutional corrections via the Electronic Data Exchange (EDE) will be available in the weeks following FPP corrections." – Dept of Education
