Introduction

The Image/Upgrade Overview Document is intended to provide ctcLink users with a summary of the changes that will be made in the system as a result of the upcoming image or PeopleTools upgrade implementation. Oracle releases multiple PeopleSoft updates, called images, for each pillar every year. Each image contains bug fixes and features that are important for PeopleSoft to work well. PeopleTools upgrades update the underlying framework of the system. There are minimal changes that are noticeable to the end users. Below is an overview of the changes that you can expect to see as part of this upgrade.

Financial Aid

2022 - 2023 ISIR PROCESSING

Regulatory Updates for 2022-2023 ISIR processing have been released and integrated into PeopleSoft. As a result, new 2022-2023 aid year specific pages have been added. The Navigation Collection in the Financial Aid Self-Service Homepage has been updated to include the below new pages, and pages for the 2019-2020 aid year have been removed.

PRORATING EFC

A fix has been implemented to address the bug that had prevented updates to a student’s FM EFC on multiple tabs of the Correct 20xx-20xx ISIR records page. The FM link has been restored and can be used again from any tab to prorate a student’s EFC. The workaround provided in June 2021 when this bug was first identified can still be used.

RETURN OF TITLE IV FUNDS

Delivered an update to align with the revised fund return order for Return to Title IV effective July 1, 2021. The delivered R2T4 worksheet pages have been modified to include the removal of the Federal Perkins Loan, ACG, and National SMART Grants and the revised placement of the Iraq and Afghanistan Service Grant in the R2T4 calculation.
