Introduction

The Image/Upgrade Overview Document is intended to provide ctcLink users with a summary of the changes that will be made in the system as a result of the upcoming image or PeopleTools upgrade implementation. Oracle releases multiple PeopleSoft updates, called images, for each pillar every year. Each Image contains bug fixes and features that are important for PeopleSoft to work well. PeopleTools upgrades update the underlying framework of the system. There are minimal changes that are noticeable to the end users. Below is an overview of the changes that you can expect to see as part of this upgrade.

Financial Aid

FISAP Processing

This Financial Aid regulatory update enables reporting of 2021-2022 aid year data in order to apply for campus-based funds for the 2023-2024 aid year. A new page for this is available within the Fund Management navigation for generating this report. The report includes the following updates.

- Part II, Section E, Field 24 for the "Total expended for state grants and scholarships made to undergraduates" was removed, per new COD specifications (see FISAP 2023-24 Technical Reference Guide - https://fsapartners.ed.gov/sites/default/files/2022-05/20232024FISAPTechnicalReference.pdf)
- New Award Year dates and Aid Years
- FSEOG totals on the bottom of page 3 are now populating correctly. This is a fix to the bug found on the 2022-23 FISAP
