Introduction

The Image/Upgrade Overview Document is intended to provide ctcLink users with a summary of the changes that will be made in the system as a result of the upcoming image or PeopleTools upgrade implementation. Oracle releases multiple PeopleSoft updates, called images, for each pillar every year. Each Image contains bug fixes and features that are important for PeopleSoft to work well. PeopleTools upgrades update the underlying framework of the system. There are minimal changes that are noticeable to the end users. Below is an overview of the changes that you can expect to see as part of this upgrade.

CHANGE BEHAVIOR IN SEARCH RESULT GRID FOCUS IN PT 8.61

Accessibility issue: upon submitting a search prompt the focus does not set to first result. Fix: set the focus to first search result.

Guideline

WCAG 2.4.3 - focus must move in an order that preserves meaning and operability.

Navigation

Any Search Prompt Page in every pillar
Example Below: CS > Curriculum Management > Course Catalog > Course Catalog

Image BEFORE: Search Results Focus. After selecting the "Search" button, the focus is on the pagination dropdown box

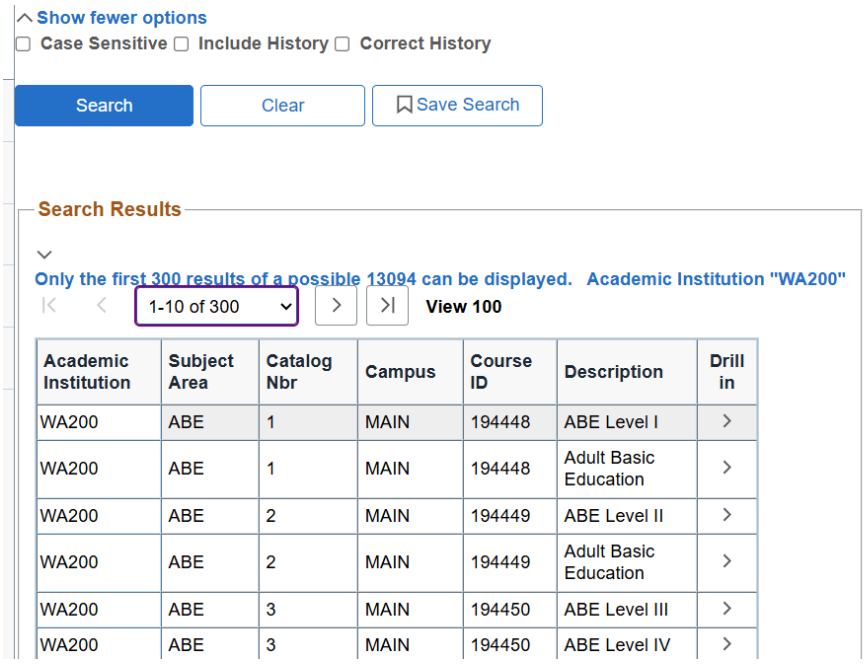

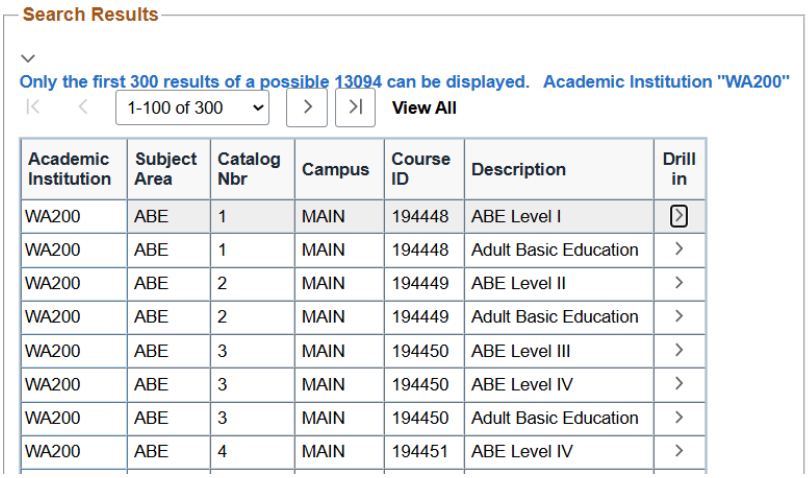

Image AFTER: Search Results Focus. Now, the focus is on the first result—as expected.

Academic Institution	Subject Area	Catalog Nbr	Campus	Course ID	Description	Drill in
WA200	ABE	1	MAIN	194448	ABE Level I	
WA200	ABE	1	MAIN	194448	Adult Basic Education	
WA200	ABE	2	MAIN	194449	ABE Level II	
WA200	ABE	2	MAIN	194449	Adult Basic Education	
WA200	ABE	3	MAIN	194450	ABE Level III	
WA200	ABE	3	MAIN	194450	ABE Level IV	
WA200	ABE	3	MAIN	194450	Adult Basic Education	
WA200	ABE	4	MAIN	194451	ABE Level IV	

HCM – Manager Self Service

Bug Fix: MSS HOME PAGE DROPDOWN NOT DISTINGUISHABLE TO A LOW VISION USER

Focus is not clear on Manager Self-Service menu items. Corrected the outline offset for menus and vertical tabs so that focus can be clearly seen.

- Missing or faint focus indicator when tabbing to the dropdown.
- Focus outline blending into the surrounding page elements.

Guideline

WCAG 2.4.7 Focus Visible - Any keyboard-operable user interface must have a visible keyboard focus indicator.

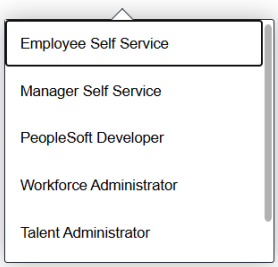

Navigation

HCM > Manager Self Service
- From MSS Tile page, select left-side menu dropdown

Image: BEFORE Focus is not clear in menu—missing outlining on "Employee Self Service"

Image: AFTER Focus on menu items now clear and distinct around menu item
