

## GA1011 – Subobject Table

Required table. Codes defined by SBCTC-ITD.

Use the Subobject Table to identify subobject of expenditure codes, corresponding titles, and object codes, as well as the salary encumbrance option for salaries and wages. The subobject code is an additional classification within each object code.

For a complete list of subobject of expenditure codes, run the DataExpress procedure GA1011R (from Group Inform, Account PLIB).
