

MM5004 - Facilities Attribute Table

Codes defined by SBCTC-ITD and colleges.

Use the Facilities Attribute Table to establish and maintain facility attribute codes. A facility attribute code identifies a specific characteristic of a building, for example, florescent lighting or smoke detectors.

User Function Keys

F1	REFRESH	Redisplays the screen. Any changes or additions you made since you last pressed Enter will disappear.
F2	ADD	Adds a new facility attribute code.
F3	CHANGE	Changes an existing facility attribute code.
F4	INQUIRY	Displays an existing facility attribute code.
F5	DELETE	Deletes an existing facility attribute code.
F6	LIST	Displays the Facilities Attribute Table - List Screen , which includes existing facility attribute codes, their corresponding descriptions, and revision dates.
F8	MENU	Redisplays the FMS System Menu.
