

FMS Implementation Notes

Table 3 – June 8, 2001

GA1090 - Fund /Appropriation Information Table

Minor enhancements:

The Fund/Appr Info Table has a new look. Due to past problems with annual appropriations, the SBCTC-ITD created new fields for the next year's Appr Indx, Fund, Appr, Budgeted Appr Indx, and AFRS Appr Indx. Only the current year fields can be modified by the users. Any changes to the next year fields will be entered by the SBCTC-ITD. The job GA1214J generates the new tables for the next year and has been modified to move the current year fields to the next year and the next year fields to the current year.
