General Instructions and Information

The following information pertains to the Table 3 implementation effective August 16, 2002.

All job scheduling documentation is accessed through the SBCTC-ITD Job Scheduling Index at <https://jobdoc.sbctc.edu>.

FMS Screen Updates

BM1002 - Financial Aid Program Code Table

Additional value created. Added a new value for the Award Package Indicator field AWARD PKG IND. You may use a "J" value for FAPC's used to pay charges for International students who:

- Have student identification numbers (SIDs) but do not have social security numbers (SSNs).
- Have awards in SAFER.
- Should have their financial aid transactions posted to the financial aid expenditure file (FAEXP).
- Have a fee pay status of 35 or 38 for community college students, or a fee pay status of A2 or A3 for technical college students.

BM3005 - Financial Aid Check Request Screen

Printing format changed. Financial aid checks ordered using this screen will now have the student's social security number (SSN) printed on the checks in order to be consistent with the financial aid checks created by scheduling the FinAid Check Calculation job AG906R. For international students who do not

have social security numbers (SSNs), their student identification number (SID) will be printed on the check.

FMS Parameters

BM1010 - Record Code

The value in this parameter determines whether the student's name and address, or the student's social security number, is printed on financial aid checks created from the FinAid Check Calculation job AG906R or on BM3005 (Financial Aid Check Request Screen). This parameter is accessed using the Configuration Parameter screen (ZX0070). The valid codes are:

Y = Print the student's name and address on checks

N = Print the student's social security number (SSN) on checks

Contacting SBCTC-ITD for Help

If you have any questions or concerns, call Linda Stokes at (425) 803-9755.
