## Introduction

This is a partial Installation of one page in Web Registration, waci222.

This document describes how to install Web Registration, release 2.4.1.

## Getting Started

In the first part of the installation process, you run the Setup program **WebRegistration-2-4.1.exe**, which will prompt you for information unique to your college. Be prepared to respond to the prompts; prompts may include some or all of the following questions:

Setup Prompt	Description
Server Installation Type	The type of web server that you are installing Web Registration on. The options include: <ul style="list-style-type: none"><li>• Unix or Linux web server located on your campus</li><li>• Linux web server located at SBCTC-ITD (www.ctc.edu)</li><li>• Windows web server located on your campus</li></ul>
HTML File Extension	The file extension you are using for your HTML files. Options include either .htm or .html.
College Code	Your three-digit college code.
Domain Name Server (DNS)	The domain name of your web server, for example: <b>www.yourcollege.ctc.edu</b>
Rqserver Location	The URL and name of the Web Transaction Server CGI program. This program resides in the CGI directory on your web server, for example: <ul style="list-style-type: none"><li>• For most Windows servers: www.yourcollege.ctc.edu/scripts/rqservnt.exe</li></ul> - OR - <ul style="list-style-type: none"><li>• For most Unix and Linux servers: www.yourcollege.ctc.edu/cgi-bin/rqserver</li></ul>

Setup Prompt	Description
Secure Server (SSL)	Is Web Registration being installed on a secure server (https)? Options include either Yes or No.

### Files Included with this Release

The following file is included with this release.

File Name	Description
waci222.html	Select Response

## Updating Web Registration to Release 2.4.1

This section provides instructions for updating Web Registration from release 2.4 to 2.4.1.

### Install Files on the Web Server

1. Download the Setup program for Web Registration from the SBCTC-ITD web site by clicking **WebRegistration-2-4-1.exe**; save the file on your PC.
2. On your PC, double-click the downloaded file **WebRegistration-2-4-1.exe** to run the Setup program.

The Setup program is launched it prompts you for various information (see Getting Started). When you have finished responding to the prompts, the Setup program unpacks the waci222 file onto your PC.

3. On your PC, locate the Web Registration installation directory. The default installation directory is **C:/Program Files/CIS/Web Registration**
4. Copy the file **waci222.html** from the **/Web Registration/** installation directory on your PC to the **/webreg/** directory on the web server. You can use any software that allows you to copy files (for example, Windows Explorer or FTP). Copy the file as ASCII.

Verify the permissions on the file is correct. At a minimum, they should allow Read access for all viewers of the web page.

### Test the Installation

Using a web browser, display the Web Registration Login page; for example, go to

**<https://www.yourcollege.ctc.edu/wts/student/webreg/waci221.html>**

## Documentation

For additional information about Web Registration, see the Student Management System documentation on the SBCTC-ITD web site.
