Draft resolution to hold an open major capital project competition for 2021-23

First reading March 22, 2019

Capital Academy on April 24, 2019

Vote on April 25, 2019

WACTC recommends the State Board take the following actions for development of the 2021-23 capital budget request:

1. Hold an open competition for new major projects to enter the pipeline in 2021-23.
2. Each of the thirty-four colleges may submit one proposal.
3. Major project proposals will be due mid-December 2019.
4. Major project proposals will be scored by a task force with representatives from WACTC, WSSSC, BAC, IC, OFC, and state board staff with oversight from ACT.
5. The scoring task force will be composed of four panels so that each proposal is scored by two different panels and no one scores a proposal from a college that have worked at. Statistical agreement between panels and scorers will be checked before the scores are finalized.
6. The proposals will be evaluated using the AY1819 capital task force recommended criteria by April 2020.
7. All proposals that score 70 points or more will be added to the pipeline in rank order for construction after the projects currently in the pipeline.
