			Proje	ect Informat	ion					
	This project is for the engineering and design of a new 70,000 sq ft building to replace portions of Batjer (Automotive, Ag, Natural Resources, Machine, Mechatronics), Industrial Technology/Welding and Refrigeration with a modern state-of-the-art technical education learning facility.									
(Include scope or budget changes, phase	June 2025 - Sexton hall has been demolished to make way for the new CTEI building. The installation of underground utilities for the new building is underway. Footings and stemwalls to follow. Excavation and footing work has begun on the retaining wall at the west side of the project.
