Statewide Technology DTA and Engineering Technology AS-T Track 2 (MRP) Agreement
July 2006 with Technical Updates in October 2006

This agreement is applicable to students planning to prepare for industrial/mechanical technologies and mechanical/electrical/computer engineering technology majors at Central Washington University (CWU), Eastern Washington University (EWU) and Western Washington University (WWU). This agreement was formed in 2006 as a part of a larger agreement including a DTA/MRP for technology. Shown here is only the AS-T for engineering technology.

This document also represents expanded detail for the existing Associate in Science- Transfer (AS-T), Track 2 between the baccalaureate institutions offering Mechanical Engineering Technology (MET)(CWU, EWU) and the related Manufacturing Engineering Technology (MfgET) and Plastics Engineering Technology (PET)(WWU); Electronics Engineering Technology (EET) (CWU, WWU) or Computer Engineering Technology (CET) (EWU)) bachelor’s degrees and the community and technical colleges system. Baccalaureate institutions party to this agreement are: CWU, EWU, WWU.

Community colleges agree:

- To offer the expanded detail for the AS-T track 2 each college must assure that the courses listed in their AS-T/MRP for each prerequisite requirement of this agreement are regarded as course equivalents to the similar required lower division course offered by each baccalaureate institution party to the agreement.

- When community colleges list the AS-T, track 2 details in their publications, they will provide the expanded detail shown below regarding these two major pathways in the field of engineering technology while retaining the current engineering detail and the general AS-T, track 2 description for purposes of students majoring in computer science, physics and atmospheric sciences.

- When community colleges award the AS-T degree for engineering technology students following these expanded details, rather than using AS-T #2 on the transcript, colleges will designate completion as follows for clarity on the transcript and use by SBCTC for tracking reporting purposes:
  - AS-T in MET/MRP. Exit Code of B (eventually will be S) and EPC code MET and CIP of 15.0805 (college must enter both CIP and EPC)
  - AS-T in EET/CET/MRP Exit Code of B (eventually will be W) and EPC code EECE and CIP of 15.0303 (college must enter both CIP and EPC)

- If community colleges find that changes to these MRPs are needed, they will notify the Instruction Commission, which will, in turn, notify the Joint Access Oversight Group (JAOG). JAOG will review the changes consistent with review process described on the JAOG web site http://www.sbctc.ctc.edu/college/_e-transferjaog.htm

- The published associate degree listing will include advice to students about contacting potential transfer institutions regarding their interests and specific course choices where options are listed.
The participating baccalaureate institutions agree:

- Students completing the specified expanded detail in the AS-T, track 2 degree if admitted to the university, be admitted as juniors with all or most prerequisites for the specific technology or engineering technology major completed.
- Students completing the specified AS-T, track 2 degree will be regarded as having the lower division general education courses partially completed in a manner similar to the partial completion by freshmen-entry engineering technology students.
- The same minimum 2.0 GPA requirement that applies to AS-T in general applies to these programs.
- Baccalaureate institutions will apply the 90 credits quarter credits required under these agreements to the credits required in the bachelor’s degree, subject to institutional policy on the transfer of lower division credits.
- Should any baccalaureate institution not require lower division courses specified in these agreements that institution agrees to accept such courses specified in the agreements as lower division electives or in some limited cases as an equivalent to the course required at the upper division.
- Baccalaureate institutions will each build an alert mechanism into their curriculum review process for changes related to the prerequisites for the technology and engineering technology degrees.
  - The alert will go to the institution’s or sector’s JAOG member.
  - If the proposed change will affect lower division course taking, the JAOG member will bring the issue to JAOG attention for action to review or update this Major Related Program agreement.
- Prior to making changes in the admission requirements, institutions agree to participate in the JAOG-designed review process and to bide by the related implementation timelines (review process posted on the JAOG web site http://www.sbctc.ctc.edu/college/_e-transferjaog.htm).
- This statewide process applies only to changes¹ in the requirements for admission to the major. References to changes do not include changes in graduation requirements that are completed at the upper division or the GPA an institution may establish for admission to a program.

JAOG agrees:

- JAOG will notify the Higher Education Coordinating Board (HECB) of the review and of subsequent changes made to the agreement.

---

¹ As judged by impact on students. This statewide process is called into play when potential majors need to complete specific courses not previously identified or present test results or information not included in the agreement.
Expanded Detail for the Associate in Science –Transfer, Track 2 for Two Engineering Technology MRPs

</tr>
</thead>
</table>
| **Communication Skills (Min. 5 quarter credits)** College level composition course. | 5 credits  
• English Composition | 5 credits  
• English Composition |
| **Mathematics** Courses at or above introductory calculus level. Third quarter calculus or approved statistics course: | 15 credits  
• Calculus 1,2-  
• Calculus 3 or Statistics (statistics for MfgET, PET) | 15 credits  
• Calculus 1,2  
• Calculus 3 or Statistics (Calculus for the EE) |
| **Computer programming** | Minimum of 4 credits  
• Programming for Engineers - (any language) | Minimum of 4 credits  
• Programming for Engineers - (any language) |
| **Physics & Chemistry** | Minimum of 20 credits  
• Engineering Physics I,II, III with labs or Algebra based physics year long sequence with labs (Engineering Physics – calculus based preferred)  
• General Chemistry I with lab -(part of the science major chemistry sequence, not introductory liberal arts course nor chemistry for nursing students) | Minimum of 20 credits  
• Engineering Physics I,II, III with labs or Algebra based physics year long sequence with labs (Engineering Physics – calculus based preferred)  
• General Chemistry I with lab -(part of the science major chemistry sequence, not introductory liberal arts course nor chemistry for nursing students) |
| **Engineering Technology Pre-major Prerequisites** | Two courses (typically 10 credits)  
• 3-D Visualization and CAD (Engineering Graphics) 4-6 credits  
• Technical Writing (course with the English Composition as a prerequisite) | Five courses (typically 25 credits)  
• Technical Writing (course with the English Composition as a prerequisite)  
• Speech (public speaking or other speech class)  
• Electrical Circuits I (may require calculus/differential equations based course)  
• Digital Logic  
• A second course in Computer Programming- object oriented - (check with potential transfer institutions for required language) |

Includes technical corrections approved by WCERTE October 2006

APPENDIX A

Expanded Detail, Associate in Science – Transfer, Track 2 for Two Engineering Technology MRPs

Participants to the Agreement

The Joint Access Oversight Group (JAOG) reviewed this agreement on July 20, 2006 and forwarded it for approval by the chief academic officers and engineering technology deans of the public baccalaureate institutions offering the technology and engineering technology degrees and the Instruction Commission representing the chief academic officers of the public community and technical colleges.

Approved by the Instruction Commission, on behalf of the Washington State Community and Technical Colleges on November 2, 2006

Baccalaureate signatures include both Technology Deans and Provosts are on file at the Higher Education Coordinating Board for CWU, EWU and WWU.

APPENDIX B

Technology DTA and Engineering Technology AS-T/MRP Workgroup Participants

Co-Chairs: Jim Bellotty, Spokane Falls & Don Richter, EWU

Community and Technical Colleges:
Jill Davishahl, Edmonds  Bob Maplestone, Highline  Kim Manderbach, South Seattle
Jim Hamm, Big Bend  Jim Bellotty, Spokane Falls
Chris Byrne, Cascadia  John McKee, Clark College

Baccalaureate Institutions:
Bill Bender, CWU  Steve Dillman, WWU
Donald Richter, EWU  Bob Olson, WSU

Staff Support:
Loretta Seppanen  Andi Smith  Cindy Morana

Includes technical corrections approved by WCERTE October 2006
Joint Access Oversight Group Members

Randy Lawrence, Olympic College, co-chair
Jane Sherman, Washington State University, co-chair
Bill Eaton, Peninsula College
Ivan Gorne, Highline Community College,
Patricia Onion, Whatcom Community College,
Pam Praeger, Spokane Falls Community College
Laurie Kaye Clary, Grays Harbor College
Sandra Blackaby, Walla Walla Community College
Linda Beath, Central Washington University
Kris Bulcroft, Western Washington University
Deborah Wiegand, University of Washington
Larry Briggs, Eastern Washington University
Steve Hunter, The Evergreen State College

Brad Tomhave, University Puget Sound
Violet Boyer, Independent Colleges of Washington
Loretta Seppanen, SBCTC
Cynthia Morana, Council of Presidents
Andi Smith, HECB – Ex officio

Includes technical corrections approved by WCERTE October 2006
