

SELECTED PROGRAMS

ENROLLMENTS IN SELECTED PROGRAMS ACADEMIC YEAR 2005-06 TO 2009-10

The community and technical college system offers a wide variety of programs and tuition assistance opportunities. A selected set of these programs are reported in detail in this chapter. Such programs include the Applied Baccalaureate degrees, Integrated Basic Education and Skills Training, apprenticeship training and the Worker Retraining program.

Apprenticeship combines classroom studies with on-the-job training supervised by a journey-level craft person or trade professional. Apprenticeship enrollments have increased 30 percent since 2005-06, however, apprenticeship enrollments have declined for the second year in a row. The decrease results from fewer apprenticeship opportunities in a depressed economy, as well as from apprenticeship caps at some colleges in the face of fiscal constraints.

Seven colleges offered **Applied Baccalaureate** degrees during 2009-10 ranging in focus from nursing to interior design. Colleges began offering applied baccalaureate degrees in 2007. Since that time enrollments have increased to 551 matriculated students or 246 state-supported FTES.

Adult Basic Education (Basic Skills) includes English as a Second Language (ESL), Adult Basic Education (ABE), and two approaches to completing the equivalent of high school – the high school diploma program for adults and courses in preparation for the GED test. Enrollments in Basic Skills declined in 2009-10 as the system experienced deep budget cuts.

Nine colleges offer courses in correctional facilities under contract with the state's **Department of Corrections**. The number of inmates participating in the programs declined in 2009-10 though the contract-funded FTES held steady. Parenting programs at all locations and specific vocational programs were cut due to reductions in the budget.

Dual credit and High School Enrollment programs include Running Start, Alternative High School, College in the High School and Tech Prep. The Running Start program assisted 18,800 11th and 12th grade students to take college courses and earn both high school and college credit. The number of students participating in alternative high school programs offered at the colleges increased by 19 percent or nearly 600 students in 2009-10.

eLearning courses allow students to participate in learning by using digital and networked technologies inside or outside of the classroom. eLearning courses displace some or all of the face-to-face time of a traditional course. State-supported eLearning FTES have more than doubled over the past five years and now account for nearly 20 percent of all state FTES.

Integrated Basic Education and Skills Training (I-BEST) programs assist students in earning college-level professional-technical credits by integrating basic skills with workforce education. All colleges now offer at least one I-BEST program in which an instructor from basic skills and an instructor from the professional-technical program jointly instruct in the same classroom. FTES in these programs increased in 2009-10 by nearly 45 percent to 1,647 state-supported FTES.

International student instruction is both state and contract-funded. State-funded students pay non-resident tuition and come from a wide range of countries. In 2009-10, international student enrollments decreased by 1 percent.

The **Opportunity Grant** program is designed to support and encourage low-income students to complete a degree or certificate by filling in funding gaps not addressed by existing financial aid programs. Colleges awarded Opportunity Grants to 5,174 students in 2009-10 who generated 3,585 FTES. This exceeded the legislative target of 2,000 FTES.

A **Worker Retraining** student is a dislocated worker enrolled in training to gain skills to re-enter the workforce. Worker Retraining FTES grew dramatically in 2009-10 as the economy continued to worsen. In addition to the 12,738 state-supported FTES served by the community and technical colleges, 489 FTES were served by Washington's private career schools.

WorkFirst students enroll in college for short vocational training. Nearly 16,600 students participated in the WorkFirst program in 2009-10 and generated 8,100 FTES.

**STUDENTS BY DUAL CREDIT AND HIGH SCHOOL ENROLLMENT PROGRAMS
ACADEMIC YEAR 2005-06 TO 2009-10**

Running Start is the largest dual credit program. It allows qualified 11th and 12th grade high school students to earn college credit while they finish high school. Running Start students enroll in courses offered to all students at the campus or through eLearning. College in the High School students take college level work at their high school. Alternative High Schools are high school programs contracted with school districts and offered on college campuses.

**eLEARNING STATE-SUPPORTED FTES
ACADEMIC YEAR 2009-10**

eLearning courses enrolled 30,911 state FTES or 19 percent of all state FTES. eLearning enrollments continue to increase each year and have more than doubled over the last five years. In 2009-10, state-supported eLearning FTES increased by 31 percent over the previous academic year.

Online instruction, which requires no face-to-face class time, grew by 20 percent and accounted for 65 percent of all eLearning enrollments.

Hybrid courses which combine some face-to-face with a significant online component grew by an astounding 67 percent. Half of the colleges offered at least 20 percent of their instruction via eLearning. Eighty-three percent (83 percent) of eLearning is state-supported.

STUDENTS RECEIVING NEED-BASED FINANCIAL AID

Some 190,000 state support students were enrolled in programs which make them eligible for aid. Of those enrolled in programs eligible for aid, 43 percent received state or federal aid.

Not all low-income students are eligible for aid. Financial aid programs were developed in the 1950s and 1960s primarily designed for young students coming straight from high school. To receive aid, students must have financial need and be enrolled in a college-level program of study. Adult Basic Education or English as a Second Language classes are not eligible for aid. Students enrolled in one or two courses to upgrade job skills or meet personal interests likewise are not eligible for aid.

Students seeking aid in paying for college costs must apply to the financial aid office at the college. Those who apply may be eligible for loans, work study or grants, as well as scholarship programs, though most are eligible for and receive grants. The demand for grants and work study aid typically exceeds the funds available. This means that students must work to reduce expenses, find employment, or take out personal loans to fund the balance of their college expenses.

STATE SUPPORTED STUDENTS RECEIVING AID ACADEMIC YEAR 2005-06 TO 2009-10

	2005-06	2006-07	2007-08	2008-09	2009-10
Receiving Aid	56,779	55,713	57,191	65,039	81,424
% Change	-1.2%	-1.9%	2.7%	13.7%	25.2%
% Receiving Aid in Programs Eligible for Aid	36.5%	36.6%	35.5%	37.6%	43.0%

Aided students are different from non-aided students in most regards. Those aided are more likely to enroll full-time for clear long-term goals related to a job or transfer. Twenty-one percent of aided students are single parents. The typical aided student is a 24 year-old female with children in the home. She is attending college full-time to prepare for work. If she completes her degree or certificate, she will be the first in the family to do so.

CHARACTERISTICS OF STUDENTS IN PROGRAMS ELIGIBLE FOR AID

**FTES BY COURSE BY LOCATION AND TIME
ACADEMIC YEAR 2005-06 THROUGH 2009-10**

Enrollments grew mainly in courses held on campus during the day or via eLearning technologies during the 2009-10 academic year, serving record enrollments in all categories. eLearning, excluding hybrid courses, increased by 21 percent and accounted for the fastest growth in FTES by course location and time. About 70 percent of all state-supported courses are offered during the day on-campus.
