

## Selected Programs

### Enrollments in Selected Programs

The community and technical college system offers a wide variety of programs and tuition assistance opportunities. This chapter details selected programs such as applied baccalaureate, Integrated Basic Education and Skills Training (I-BEST), apprenticeship, and Worker Retraining programs.

**Apprenticeship** combines classroom studies with on-the-job training supervised by a journey-level craft person or trade professional

**Applied Baccalaureate Programs** were first approved for the system in 2007. Fifteen colleges offered 35 applied baccalaureate degree programs during 2014-15.

Eight colleges offer courses in correctional facilities under contract with the state **Department of Corrections**. In 2011-12, the Department of Corrections introduced a new educational referral guide to reflect its new philosophy of “getting the right offender in the right program,” focusing mainly on high-risk-to-reoffend inmates. The end result of the new policy is that, while fewer offenders receive educational services, those in educational programs get instruction at a higher level of intensity.

**Dual credit and High School Enrollment** programs include Running Start, Alternative High School, and College in the High School.

**eLearning** courses allow students to participate in learning by using digital and networked technologies inside or outside of the classroom. eLearning courses displace some or all of the face-to-face time of a traditional course.

**I-BEST** programs assist students in earning college-level professional-technical and transfer credits by integrating basic education and developmental education with workforce and transfer education. I-BEST programs have either a basic or developmental education instructor and either a workforce or academic transfer instructor providing instruction together in the same classroom.

**International Student** instruction is both state- and contract-funded. State-funded students pay non-resident tuition and come from a wide range of countries.

**The Opportunity Grant** program is designed to support and encourage low-income students to complete a degree or certificate by filling in funding gaps not addressed by existing financial aid programs.

**The Worker Retraining Program** provides education and training to unemployed or dislocated workers to help them re-enter the workforce. Many students, particularly those enrolled in Worker Retraining during the recession, have gone back to work due to the improving economy. Some have had to leave early as their support benefits were reduced or ended.

**WorkFirst** students enroll in college for workforce training. WorkFirst FTES and students declined sharply for the fifth straight year as the program continues to have significant budget cuts.

## Students Receiving Need-Based Financial Aid

### STATE SUPPORTED STUDENTS RECEIVING AID ACADEMIC YEAR 2010-11 TO 2014-15\*\*

	2010-11	2011-12	2012-13	2013-14	2014-15
Receiving Aid	79,234	80,275	77,712	74,598	70,349*
% Change	11.8%	1.3%	-1.5%	-5.6%	-5.7%
% Receiving Aid in Programs Eligible for Aid	37.0%	42.5%	43.6%	42.7%	42.0%

### CHARACTERISTICS OF STUDENTS IN PROGRAMS ELIGIBLE FOR AID

\*There were 168,150 state-support students enrolled in aid-eligible programs in the 2014-15 academic year. Of those enrolled for aid, 42 percent received state or federal aid.

\*\*The numerator and denominator were revised in 2014-15, as a result the numbers were re-run for all years with the change. Source: SBCTC Data Warehouse Student Table. The prior calculation's denominator was based on all students whether they were eligible or not for aid. This did not create an accurate view of the actual percent of those being served by aid. The calculation now uses a denominator comprised of all those eligible to receive aid and the numerator includes only those who receive aid. The numerator has not changed.

Note: ABE and ESL course are not eligible for aid.
