

SBCTC 2023-24 EXPENDITURES REPORT

EXPENDITURE CATEGORIES

Expenditure categories are accounted for by the source of funds: legislative appropriations, student operating fees, grants, and local revenue sources such as fees for courses funded exclusively from student fees (student-funded courses). There is no local tax support for Washington community and technical colleges. Expenditures exclude auxiliary enterprise funds, such as those used to run the campus bookstore or cafeteria. College expenditures of the federal Carl D. Perkins Act, the federal Adult Education and Family Literacy Act, and WorkFirst funds are reimbursed by the State Board office from federal funds and therefore net to zero in these expenditure reports.

The expenditures are reported by fund, program, and object (types of things purchased such as salaries, benefits, equipment, and travel).

FUNDS INCLUDED

State Appropriations: Legislative appropriation of the following funds: 001 - General Fund State; 08A - Education Legacy Trust Account; 24J – Workforce Investment Account; 060- Capital Projects Account (debt service). Excludes allocation to SBCTC.

Operating Fees (149): College operating fees and interest income earned on those fees. (Not appropriated)

Local Dedicated Fund (148): Consists primarily of fees for courses not funded by the state; lab, course and other fees established for specific purposes; and income generated from instructional enterprises, such as food service and auto repair courses. (Not appropriated)

Grants and Contracts (145/146): Funds received from governmental or private sources dedicated for specific restricted purposes. Also included are revenues from contract courses. As noted above, the major federal grants and the WorkFirst funds that flow through the State Board net zero in the college accounting records and are not reported here. (Not appropriated)

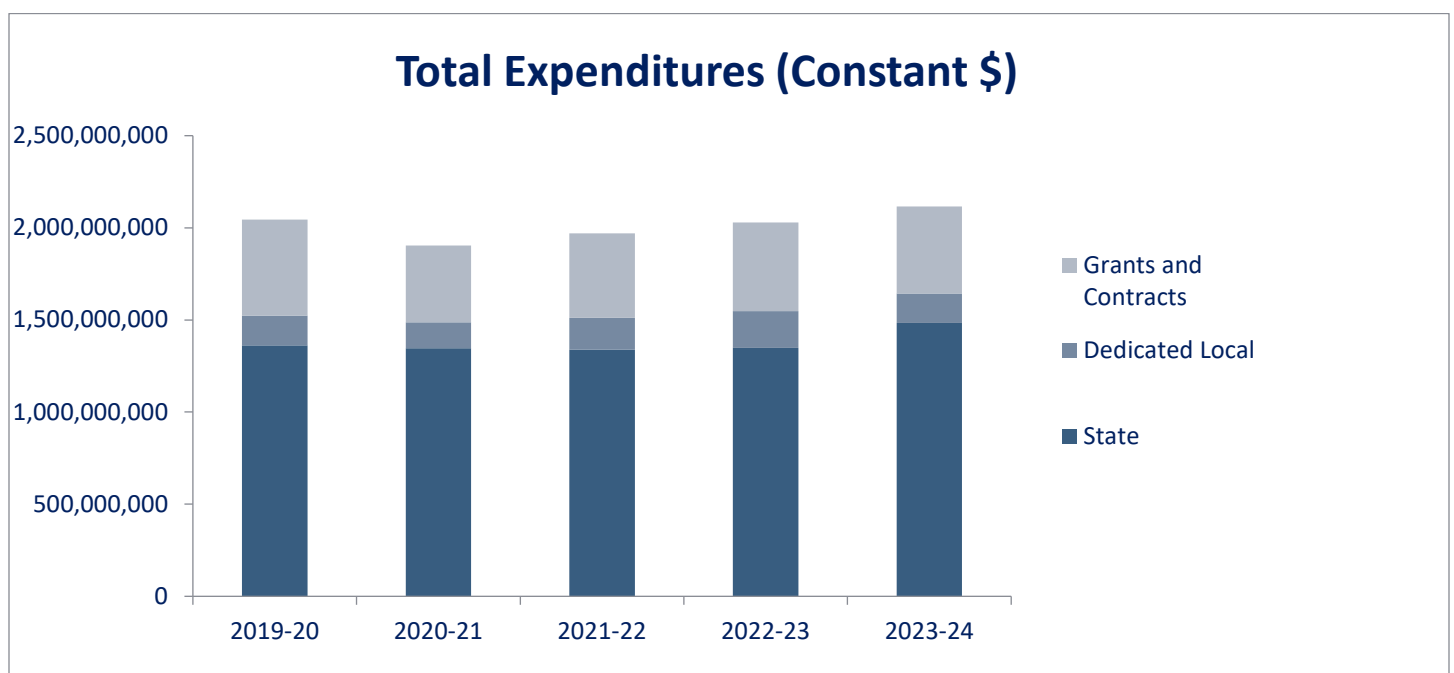

CONSTANT (FY24) DOLLAR CALCULATIONS

Historical fiscal data is presented both in current and constant (FY24) dollars. Current dollars provide a measure of increases or decreases in funding without inflation adjustments. Constant (FY24) dollars were calculated using the “implicit price deflator” adjusted to fiscal years.

The following index numbers were used¹:

FISCAL YEAR	2019-20	2020-21	2021-22	2022-23	2023-24
INDEX	0.852	0.870	0.922	0.922	1.000

EXPENDITURES BY SOURCE OF FUNDS²

¹ Source: Economic Forecast Data, Inflation and Population Measures <http://fiscal.wa.gov/OtherResources#pubs>. **Note-** The U.S. data has been revised, reflecting the re-benchmarking of the National Income and Products Accounts (NIPA), as well as some methodological changes the Bureau of Economic Analysis has made to the data (as of June 2024). This affects the implicit price deflator for virtually all of history.

² State includes the following state appropriated funds: 001 General Fund-State; 24J Workforce Investment Account; 08A – Education Legacy Trust Account; 060 – CTC Capital Projects Account (debt service).
